DODGE'S PATENT REAPER AND MOWER

AND SELF-RAKER.

This machine has met with the most complete success. In every section where it has been introduced, it has taken precedence over those machines which have heretofore ranked as first-class. It is a perfect Self Raker and a superior Mower.

A careful examination will convince any one of its superior merits over all others, in simplicity, strength and durability. As a self-raking Reaper it has no equal to our *knowledge.*

The Dodge Rake is attached to no other machine in the United States, except to this machine. Built by the DODGE & STEVENSON Manufacturing Co., Auburn, New York.

READ THE NOTICE OF THE COMPANY TO OUR AGENTS:

Having been informed that certain manufacturers in Ohio and elsewhere are building Reapers, with DODGE'S SELF-RAKE attached, we ask you to furnish us the names of all persons vending or purchasing such machines as we have never licensed any person or persons to manufacture said SELF-RAKE, or any part thereof, and will prosecute to the full extent of the law all persons manufacturing, selling or using said Self-Rake except of our own manufacture.

JOHN A. DODGE, President.

We have that confidence in the machine that we are willing to let those wanting a machine test it with any other machine they may wish, and keep the one that gives the most satisfaction.

Farmers wanting Droppers attached can be accommodated.

For the benefit of those wanting machines we would refer them to a few of those to whom we have sold, viz:

STILL AHEAD!

HOFFHEINS'

REAPER & MOWER,

One of the Greatest Machines of the Age,

IS superior to any other Machine now in use, as it will excel any that will ever be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves, before buying elsewhere. To those who intend to purchase other machines in strength, durability, ease of draft, and simplicity of work, in all kinds of grass and grain.—It cuts to good grain admirably, which is a great item in Machines to a farmer. It can be used as a sand or stone burr, and is self-raker. It cuts 5 feet 2 inches in grain; 4 feet 10 inches in grass; has a steel cutter bar, with steel wearing guards; it can be used as a Single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHIRKMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known SMART RAKE, the best rake ever introduced. We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very lightdraft strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

ALSO, THE KEELER AND EXCELSIOR FANNING MILLS, the old cambrough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and will thresh and screenings, and warranted to work perfectly.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can see them at Culp's Hotel on the Baltimore pike, 3 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

IMPOTENCY, LOSS OF POWER,

Immediately Cured and Full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the Victims of improper indulgence. Young persons are too apt to commit excesses

aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is not soonest by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE WARRANTED IN TWO DAYS.

Relief in six Hours! No Mercury!

Persons Ruined by Ignorant, Trifling Pretenders and their Deadly Poisons, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with stopping in the head when they make water, great nervousness, being alarmed at sudden sounds, trembling, with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

Who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are lamentably felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and employment of life by the consequence of deviating from the path of nature, and indulging a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has indeed the specs of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid curse makes their appearance, such as ulcerated sore throat, discomposed eyes, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to the dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of those ignorant pretenders to MEDICINE, who by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life, Vigor and Happiness, he despair leave him with ruined health to weep over his gaping disappointment.

To such, therefore, Dr. JOHNSTON pledges himself to preserve the most inviolable Secrecy, and from his extensive practice and observations in the great Hospitals of Europe, and the first in this country, viz: England, France, Philadelphia, and elsewhere, is enabled to offer the most Certain, Speedy and Effectual Remedy in the World for all Diseases of Imprudence.

ENDORSEMENT OF THE PRESS.

The many thousands cured at this Establishment, year after year and the numerous important Surgical Operations performed by Dr. Johnston witnessed by the representative of the press and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

THE TWO CHURCH BUILDERS.

BY JOHN G. SAXE.

A famous king would build a church,
A temple vast and grand;
And, that the praise might be his own,
He gave a strict command
That none should add the smallest gift
To aid the work he planned.

And when the mighty dome was done,
Within the noble frame
Upon a tablet, broad and fair,
In letters all aflame
With burnished gold, the people read
The royal builder's name.

Now when the king, elate with pride,
That night had sought his bed,
He dreamed he saw an angel come,
(A halo round his head,)
Erase the royal name, and write
Another in its stead.

What could it mean? Three times that night
The wondrous vision came;
Three times he saw that angel hand
Erase the royal name,
And write a woman's in its stead
In letters all aflame.

Whose could it be? He gave command
To all about his throne
To seek the owner of the name
That on the tablet shone;
And so it was the courtiers found
A widow poor and lone.

The king, enraged at what he heard,
Cried "Bring the culprit here!"—
And to the woman trembling sore,
He said, "'Tis very clear
That you have broken my command:
Now let the truth appear!

Advertisers and others interested will bear in mind that the regular circulation of the "STAR AND SENTINEL" is much larger than that of any other paper published in the County, being read weekly by not less than 11,000 persons.

THE Copperheads betray their real sympathies by the avidity with which they seize upon and gloat over every manifesto designed to palliate the crime of Rebellion or excuse the conspirators who sought the nation's life. With equal avidity they gloat over whatever tends to belittle the great soldiers and statesmen by whose devotion the nation was saved. Just now the Copperhead press is in high glee over Judge Black's malignant attack on Edwin M. Stanton and weak defence of Howell Cobb, Isaac Toucy, John B. Floyd, and Jacob Thompson, the conspirators of Buchanan's Cabinet, who bankrupted the Treasury, destroyed the credit of the nation, scattered the Army and Navy, and generally did their best to cripple the power of the Government, and lay it helplessly at the feet of the conspirators then plotting War and Treason. That Judge Black should issue such a manifesto can only be accounted for by giving him credit for intense hatred of the Government and keen disappointment over the failure of the Rebellion. The cordial endorsement of his manifesto by the Copperhead Press must be accepted as evidence of equally keen disappointment that the War ended in the overthrow of the Rebellion and the triumph of Freedom.

THE Copperhead papers are denouncing Congress for not having agreed to repeal the Income tax. They would have denounced Congress, as legislating in the interests of the rich, if that particular tax had been repealed.

The truth is, Congress has done the equitable thing. It has entirely exempted from the tax all persons whose net incomes do not exceed $2,000 a year; and it has reduced the rate of tax to three per cent. on all whose net incomes are $2,000 or upwards a year.

To have entirely repealed the tax would have been to exempt the wealthy. Congress has not discriminated against the poor by repealing the tax, nor has it maintained the tax at an excessive figure so as to give cause of complaint on the part of those who are subject to it.

Copperheads are welcome to all the capital they can make out of this agitation. It is noteworthy, however, that they all voted to repeal this tax, and thereby increase the burdens of the poorer classes.

A NOVEL case of breach of privilege is now before Congress. Recently a Richmond rough, named Patrick Wood, *alias* Rooney, made a murderous assault on Congressman Porter, of Virginia, while on a visit to Richmond. The matter being communicated to the House of Representatives, the Sergeant-at-Arms was ordered to proceed to Richmond, arrest Wood, and bring him to the bar of the House. This was done, the Sergeant-at-Arms refusing to recognize a writ of *habeas corpus* which was served on him by a Virginia Court. Wood being brought before the House on Saturday, the Judiciary Committee was instructed to examine into the case and report what action was proper in the premises, Wood to remain in the custody of the Sergeant-at-Arms until *his case is* disposed of.

THE Chicago *Times*—the leading Democratic journal of the North West—dissents totally from the Ohio Copperhead Platform so far as it proposes to make the repeal of the Fifteenth Amendment a party issue. It plainly tells the party that nothing is to be gained by fighting that measure or by continuing "public agitation on the nigger question" in any form. On this the Cincinnati *Enquirer* takes the *Times* up and expresses the belief that there is nothing in the world like the "nigger question" for an issue. "If we cannot have that," it exclaims, "what is the use of a political organization?" This little difference indicates the difficulties which beset the party at the outset.

COPPERHEADS are crowing over what they call a victory at the late municipal election in Washington.—But they suppress the fact that the Emery men elected five *colored men*, on their ticket, to the Councils of the City. If the Emery men are Democrats, they are clearly not of the Adams county stripe—who "go into fits" whenever they remember that the XVth Amendment is the irrepealable, irreversible, and settled law of the whole land, and of every State within it—against which, and the 900,000 votes it represents, only political idiots persist in making war.

THE Commissioners of the Sinking Fund of Pennsylvania have determined, (in accordance with the decision of the Supreme Court of the United States that all debts contracted prior to 1862 are payable in gold,) to pay in gold the principal and interest of the loan of April 10, 1849, and April 2, 1852, falling due on the first of July next. These loans amount to $924,000 —$400,000 being interest at the rate of 6 per cent., $412,000 at 5 per cent., and $112,000 at 4½ per cent. These are the only loans falling due on the 1st of July.

CHARLES DICKENS, the greatest of English novelists, died on Thursday the 9th inst., at his residence at Gadshill, near Rochester, England. He was at dinner on Wednesday and was seized with a sudden illness, which proved so alarming that eminent physicians were summoned from London, but his case was hopeless. Mr. Dickens' works have made him one of the most widely known and popular men in the world. His death will be regretted by a large circle of readers.

THE Republicans of Delaware have nominated Hon. Thomas B. Coursey, for Governor, and Hon. Joshua T. Heald for Congress. With the aid of the colored vote, the prospect is good for redeeming the State from Democratic misrule. In such case, of course that relic of Democratic devotion to barbarous usages, the whipping-post, will go by the board.

GREAT Britain has at length abandoned its old doctrine, "Once a subject always a subject," which has been a source of much irritation with the United States, [illegible] in future the American [illegible] all naturalized natives of [illegible]. A treaty to that effect has been concluded between Minister Motley and Lord Clarendon.

The Copperheads of Ohio have a new platform.

frank way of putting things, and don't hesitate to proclaim their disloyalty.—The following resolutions adopted by the "Democratic" Convention of Fairfield county, in that State, will be cordially endorsed by every blood-stained, unrepentant Rebel in the land:

Resolved, That the war waged by the Abolition party against sovereign States was a partisan war, for spoils, and for partisan purposes, and was in violation of the Constitution and the democratic theory of our Government.

Resolved, That the war debt was created under false pretenses, and in violation of the Constitution, therefore a fraud upon the people, and is now exacting, as it has been, the very substance of the toiling millions to pay the annual interest of the same; hence, if continued, must inevitably make abject slaves of the masses to the bondholders; therefore,

Resolved, That we are in favor of disowning the bonded debt, or, in other words, are in favor of repudiating it; and if paid, we are in favor of letting the Abolition party and its negro-allies pay it.

COPPERHEAD papers are howling about the land grant voted to the Northern Pacific Railroad Company. They don't tell the people that about one-half the Copperhead Congressmen voted for the bill! Nor do they award the least credit to those Republicans, (including Mr. Cessna of this district,) who voted against it.

OUR CRIPPLED HEROES.

The conference committee of the Senate and House have agreed on the following bill, which will be read with interest by our crippled heroes.

First. Every soldier who was disabled during the war for the supression of the rebellion, and who was furnished by the War Department with an artificial limb or apparatus for resection, shall be entitled to receive a new limb or apparatus as soon after the passage of this act as the same can be practicably furnished, and at the expiration of every five years thereafter, under such regulations as may be prescribed by the Surgeon General of the army; provided the soldier may, if he so elect, receive, instead of the limb or apparatus, the money value thereof at the following rates, viz: For artificial legs, $75; for arms, $50; for feet $50; for apparatus for resection, $50.

Second. The Surgeon General shall certify to the commissioner of Pensions a list of all soldiers who have elected to receive money commutations instead of limbs or apparatus, with the amount due to each, and the Commissioner of Pensions shall cause the same to be paid to such soldiers in the same manner as pensions are now or hereafter may be paid.

Third. That every soldier who lost a limb during the late war, but from the nature of his injury was not able to use an artificial limb, and consequently received none from the Government, shall be entitled to the benefits of this act and shall receive money commutation as herein before provided.

FATAL DISASTER ON THE RUTLAND AND BURLINGTON ROAD—FOUR PERSONS KILLED AND THIRTEEN WOUNDED.—The night express train coming north on the Rutland and Burlington Railroad, Tuesday night, ran into a wash-out culvert about midnight, near Ludlow, "dumping" the engine and leaving the cars on the south side of the break, injuring no one, we believe, except the engineer.

A freight train was standing at Summit Station, in Mount Holy, and a telegram was sent for the engine and caboose to come to the scene of the disaster and take the passengers to Rutland. This was done. The passengers, twenty-five in number, were transferred to a freight car and started north. When about two miles north of Summit Station, at two o'clock A. M., they ran into another wash-out some ninety feet wide and fifteen feet deep. The engine plunged into the chasm and the car followed, landing on top of the locomotive. To the shock of this fearful plunge in the darkness and storm, amid crashing timbers and the cries of the wounded, were added the horrors of scalding from the steam escaping from the wrecked locomotive. When help was finally secured, and the killed and wounded extricated, it was found that a sad list of casualties had occurred. The engineer, James Hardy, and Mr. M. Crocker, master car-builder of the road, who was riding on the engine, were instantly killed. One man in the car, a Mr. Abbott, from Lowell, MASS., was also killed.

Another passenger died before night; three other passengers had broken bones, and nine or ten were scalded by the steam, some of them in a horrible manner. Mr. Foss, engineer of the passenger train wrecked at Ludlow, was so badly scalded that when he pulled off his boots the skin came off with them. Notwithstanding his injuries, he walked back to Summit, and sent a telegram to Rutland giving information of the disaster.

NO PRINCIPLES.—Speaking of the concerted howl raised by the Democrat journals of this Congressional district in favor of a "white man's party," the Chambersburg *Repository* says, that it is a tactic admission that they have no issue with which to go before the people in the approaching Congressional campaign, and have therefore agreed to be unanimous in assailing the colored vote, and adds:

"The negro question is finally and eternally settled. The Fifteenth Amendment could not be revoked except in the same way as it was adopted by the concurrence of three-fourths of the States to an act of Congress submitting the question to them. This of course can never be done. Then what means or what is the use of the cry of the "White men's party?" Nothing more than that they dare not take issue on the tariff, that all other issues are dead and that they hope to win a few Republicans to their party by thus exciting their prejudice against the negro. Suppose that there were enough of Republicans opposed to the Fifteenth Amendment to enable the Democracy by voting with them to elect their ticket, what would such a result accomplish? It would not deprive the colored people of the right to vote. It would not annul the Fifteenth Amendment. It would in fact do nothing except elect some corrupt demagogues to office, and in no respect benefit the disaffected Republicans.

Then nothing is clearer than this, that the leaders of a bankrupt and desperate party want to ride into office on the wave of a miserable prejudice. That is the whole sum and substance of the "white man's party." That is the whole text from which they preach. It has no principle and no character. If they did not think they saw personal advantage in it they would have nothing to do with it; and if they succeeded in their aims, if they could entice enough silly Republicans to their party to elect them they would laugh at their folly, and enjoy the offices.

M'FARLAND is about again. The *Daily Times* of Indianapolis, of June 8th, says that a special dispatch from Martinsville Morgan county, says that Daniel M'Farland on that filed a motion in the Court of Common Pleas of that county for a new trial of the suit in which his wife was granted a divorce. He alleges, first, that no proof of publication was ever filed in the case; second, that the defendant never had notice of the pending suit, and third, that he will be able to show that Mrs. Calhoun committed perjury as a witness in the case.

THE City of Boston, which left New York on January 25th, and has not been heard of since, has at last been given up as lost by the Inman Company, to which she belonged. Mr. Inman thinks that the ship was crushed in the ice fields, which had suddenly broken up. There is a strong probability that the Boston went down at short notice, as no vestige of the wreck has been seen, and not a solitary survivor is left to tell the tale of the disaster.

IN the number of *Good Health* for June, a writer says: "In 1771, a man in Stamford, Eng., made a wager that he would live for seven weeks on water alone, and won the bet. St. Simon Stylites ate nothing during the six weeks of Lent, and an insane man at Harlem, who imagined himself to be the Messiah, actually fasted forty days, tasting nothing but water and a fair allowance of tobacco smoke. There seems to be the most authenticated cases of voluntary starvation; cases of long abstinence as the result of disease are very numerous. Catharine McLeod, of Kincardine, Eng., after a severe attack of fever, fell into a week, bloodless state, and for a year and three-quarters nothing passed down her throat either liquid or solid. She afterward recovered. In 1861, a boy lived at Greenville who had a long illness when about eight years of age, and on recovering, could eat nothing for more than a year."

TAKING THE CENSUS.

As the Assistant Marshals will ere long commence the work of taking the census for 1870, the following explanation of the process will be read with interest. The information may be of service to heads of families who will be required to furnish the requisite data.

The census taker is an employed assistant of the United States Marshal. His first duty is to number the dwelling houses in the order of visitation, and to number the families contained therein in like manner. He records the name of every person whose place of abode on the first day of June, 1870, was in a given family. A description of each person is required, and includes his or her age at last birthday, but if under one year the months are simply given. Furthermore, the sex must be stated, if male, with the letter "M," if female, with the letter "F." The color of the person is thus recorded: If white with a "W," if Black with a "B," if mulatto with an "M," if Chinese with a "C," and if an Indian with an "I." That covers the ground in obtaining the census of *population*, but professions, occupations and trades are also inquired into. Others inquiries refer to the value of real estate and personal property owned by each person—not the value assessed by Government taxes, but the value put upon such property either by the owner himself or by the market. For example—a person may own a house and lot worth ten thousand dollars, but which the tax assessors value at four thousand dollars. He should report the value at the first named figures to the census takers, so that it may be ascertained what was the cash value of all the real and personal property in the county, State, and throughout the republic on the first of June of the present year. It is intimated that the inquiries relative to profession, occupation or trade and to educational attainments "are not to be asked in respect to infants." It would seem to be optional to persons whether to state if their parents were of foreign birth, if they attended school within the year, if they can read or write, and what their constitutional relations are. A table, which will be of value to medical men relates to vital statistics. A schedule is devoted solely to a list of persons who died during the year ending June 1st, 1870. As in the first schedule, the number of the family is given; then follows the name of every person who died during the year whose place of abode at the time of death was in this family. The age at last birthday (when an infant, the number of months), the sex, color, and condition—that is, whether single, married or widowed. Also the place of birth, whether foreign or native, naming the State, Territory or foreign country; the nativity of the parents, the month in which the person died, the profession, occupation or trade and disease or cause of death. An important schedule is devoted to the rural districts. It requires the name of the agent, owner or manager of the property, the number of acres of improved land and the number of acres of woodland and other unimproved. Next in order, inquiry is made of the present cash value of the farm, and the same of the farming implements and machinery. By way of ascertaining the expenses incurred in working each farm inquiry is made of the total amount of wages paid during the year, including value of board. Under the head of "Live Stock, June 1, 1870," are spaces in which must be written, under their appropriate sub heads, the number of horses, mules and asses, milch cows, working oxen, other cattle, sheep and swine, and the value of live stock on the farm on the date mentioned.—Next in order, and of much importance, is the produce of the farm during the year ending June 1, 1870. To begin with, the name of the corporation, company or individual producing to the value of five hundred dollars annually is required, and after that the name of business, manufacture of product, and the capital, whether real or personal, or both, invested in the business. Under the head of "Motive Power" it is desired to know what kind of power is used, whether steam, water, wind, horse or hand, and if steam or water the number of horse power. If machines are used, their name or description and the number in operation are necessary. To ascertain the extent, cost and amount of such business, inquiry will be made of the average number of hands employed, including males above sixteen years, females also the total amount paid in wages during the year and the number of months in active operation, reducing part time to full time. To ascertain the materials used in the business, whatever it may be, and including mill supplies and fuel, the kinds and quantities and their values, omitting fractions of a dollar, must be stated. There is a valuable schedule devoted to *social* statistics, and one of the inquiries in this connection relates to libraries, of which the kind and number of volumes must be stated. These include State libraries, town or city, libraries of courts, church libraries (pastors), Sabbath school libraries, circulating (subscription) and private libraries including those of lawyers and clergymen. Under the head of wages, it must be stated what are the average wages to farm hands per month, hired by the year and boarded; average wages of a day laborer without board, and the same with board; average payment to a carpenter per day without board; average wages to a female domestic per week without board, and average price of board to a laboring man per week; the whole, of course, to be given separately in dollars. Very little is demanded under the head of religion. The inquiries are confined to the number of church organizations, number of church edifices, denominations, the total number of persons which the churches will accommodate and the value of church property. At the time the census bill was before Congress it was suggested that each person be required to state what his religious belief was, or rather what religion he professed, but the suggestion was rejected on the ground of its prying into the human conscience. So that it was finally decided to ignore the spiritual part of religion and confine the inquiry to the material part, in the shape of churches, their accommodation and value. We have only to state finally that persons are liable to a fine for refusing to answer questions which are *imperative*. In such cases as are optional they will exercise their own discretion.

NO FEE FOR THIS ADVICE.—After it is too late to protect them against fraud, many of our people learn the importance of putting a seal after their signature, when attached to a promissory note. When there is no seal, and the note is transferred to a third party before it becomes due, the maker thereof can offer no defense in law against its payment, no matter that he may have paid most of it to the second party or been wholly swindled in the consideration for which it was given. But a seal following his signature, no matter in whose hands he may find his note, secures to the giver thereof the right to prove full or part payment thereof, or the want of consideration therefor. Patent right men, particularly if they are on the swindle, in selling a thing that is not patented, or a patented thing, to which they have no right whatever, are always anxious to get notes on time without seals, so that they can readily dispose of them for whatever they will bring, making a very large discount to get the money. A seal protects against this transaction, and every person giving notes ought to know just what they are doing. A little caution in this matter may protect against sharp practice, but can hurt no honest man.

NASBY IN DELAWARE.

(From the Toledo Blade.

HIS APPRECIATION OF THE DEMOCRACY OF THE STATE—THE TROUBLES OF TWO OF THEM WHO DESIRED TO REBUKE LIQUOR VENDERS FORFEITING TO NEGROES.

MASTER'S CORNER, MIFFLINTON HUNDRED, IN THE STATE UV DELAWARE, May 28, 1870.

To say that I am delited with the Dimocrisy uv Delaware is to yoose a mixably faint expression. They hev all the easygoin faith uv the Kentuckian without his ferocity; they hold jest ez firmly to the resolooshens uv '98, they drink with ez much alacrity; they generally go barefooted and hate the nigger with an intensity I never saw ekalled. In the matter uv liker they are simply grate. I saw one old vetran, wich votid for Jaxon, take down a clean half-pint uv burning fluid, wich the most restless minded citizen uv the Corner hed jest diskivered and bought ez a substitoot for taller dips, and walk off erect under it. There's bowels for you! Wood that I wuz blest with sich.

I hev diskivered that the prevailin idee that a cold climit is nessary to the enjoyment uv grate quantities uv likker is a mistake. Cold, it's troo, enables a man to take it in, but then when it's wunst in a man in a cold country it stays. Yoo can't drink quite ez much to wunst under a bilin hot sun, but then it sweats it out uv yoo, and yoo kin drink oftener. But this is a digression.

The Dimocrisy uv Delaware ez I sed, soot me. In other States wher they hav drunken Senators they are ashamed uv em; Delaware is absolootly proud uv Saulsbury, and would'n change at no price. Then in addishen to Saulsbury we hav the whippin-post and a white man's party, so that in Delaware at least the tokens uv high civilizashen are not likely to become extinct.

Thank the Lord for Delaware.

Mr. William Sapp, familyarly knowd ez Old Bill Sapp, at whose house I wuz assinded quarters, is a constoobnel grocery keeper, and at his house is held the conferences uv the offishels uv the State. Yesterday Saulsbury and Bayard, the United States Senators, and Gove Saulsbury, Governor, and others wuz present. The Dimocracy uv the Corners insisted that ez they required their candidates to pledge theirselves not to accept of nigger votes, that the Senators uv the State should hev resined the moment a nigger Senator wuz admitted. Saulsbury didn't see it in that lite. Troo, it wuz a degredashen, but one wich they coodent avoid. There wuz a diffrense between voluntary and involuntary associashen with niggers. Ef a man voluntarily solissits nigger votes he is to be held guilty; if an outside power forces niggers on to him, he cant help it and is innocent. He and his colleague Bayard coo lent help this outrage; Revels was forst into their sosiety against their will. They wuz, so to speak, morally ravisht. They resisted, but in vain.

Two uv the best Democrats present related their recent experience in Washington. Their idee uv Senators hed bin formed from Saulsbury, and they sposed they wuz all like him. Bein in Washington they determined to bear testimony agin the admission uv nigger Senators to degrade their Representatives. So they decided to visit all the places wich, from their knowledge uv Senatorial life they sposed Senators visited, and demand ef they sold likker to Revels, and of the answer wuz in the affirmative they wood walk out indignantly. They went so fur ez to organize the little speech they wuz to git off on them wich shood confess to admittin a nigger to ther bar.

"Sir!" they proposed to say to him, "Sir! we are proud Caucashens, and we can't countenance an admixter uv inferior races with us. Keep your likker, sir, for niggers—white men hev no bizgis here."

"Do yoo sell likker to Revels?" they askt uv the first one.

"No, sir!" wuz the response, whereupon they took a drink.

Immejitly they entered another.

"Do yoo sell likker to Revels?"

"No, sir!" whereupon they took a drink with him, and so on eight to ten times, drinkin at each bar wich gave that answer, to show their appreshashen uv men who coodent degrade theirselves by dealin with an inferior race. The twelfth place—

"S'll likker to Revels?"

"No, sir."

"Set em up! 'Rah for Consloosha, and Ameriky for white men."

And takin ther tods they swung out into another one.

"Likker to Revels?"

"No, sir!"

"S'in up. 'Meriky for wite men. 'Rah."

And still another one.

"Likker Revels?"

"No, sir!"

"Likker for us gen. Merl—(tic)—ky I'm wite men. 'Rah—(tic."

The next place finished one uv em. He gasped, and sank lovinly on the buzzum uv his mother earth. The other wuzn't so far gone, owin to his sooperior mental organizashen. He reeled off in a brown study and went up to the Capitol. Returnin in about an hour he shook up his friend.

"Mordeky, sed he, "git up. Mordeky, we've bin deceived. Mordeky, we mite go all over Washington, into every sl—(ic)—s'loon and not find a single place where they sell likker to Revels. Mordeky, that apelike, degradid, inferior bein is a Methodis preachir, and don't drink a drop uv nothin."

And utterin snorts uv disgust at sich Senators, they came home.

The Democracy uv the Corners is not ez harmonious ez cood be wished. The nigger hez split em here. There are perhaps a dozen niggers in the vissinity who take ther tods regierly, and heretofore Sapp hez supplied em. The Democrisy pertested agin this, and refoozed yesterday to paternize his bar ef he didn't stop sellin to em. Willyum smiled a sardonic smile and told em to be blest. They did withdraw their paternage, but it wuz for only two hours. Willyum hez the only bar in the Corners and he knowd his power. It didn't take long for em to exhaust ther camfor bottles, and then they hed to return to him on his terms.

It's a fearful thing for one man to hev the power Sapp wields. The only bar in sich a community! Thank Heaven he loves me.

PETROLEUM V. NASBY,
Wich was Postmaster.

A YOUNG DARE DEVIL.—A gentleman, who was a passenger, states that when the train coming east arrived at Jefferson City yesterday, the inspector proceeded, as usual, to tap the car wheels, to test their soundness, when he discovered a boy under one of the cars. He had forged a sort of net of rope in which he lay suspended like a spider in its web, between the axle of one of the trucks and the floor of the car. The boy was rooted out of his place, and quite a crowd gathered about him on the platform. He was disposed to be saucy, and said he hadn't no favors to ask of anybody. He stated that he had ridden in this way thousands of miles. As the train was moving off slowly from Jefferson City the boy got in his old place again under the car while it was in motion. The conductor was notified and stopped the train. The boy was hauled out from his lurking place, and taking up a stone was in the act of hurling it at the conductor, when the latter knocked him down. He did not "dead head" it any further on that train.—*St. Louis Republican, June 8th.*

IN order to amuse the children, a lady was engaged in reading from the Bible the story of David and Goliah, and coming to the passage in which so boastingly and defiantly dared the young stripling, a little chap, almost in the first trowsers, said: "Sister, skip that—skip that; he's blowing. I want to know which licked."

M. Kline, Esq., at New Cumberland, was struck by lightning and considerably damaged.

WHILE some of the Western States complain of the damage to their growing grain on account of a prolonged drouth, the champion wheat-growing State of the Union, Minnesota, sends word that the prospects of an abundant yield of wheat were never better than at present. An immense breadth of the cereal has been sown, and the alternation of sun and rain has been so well-timed that the farmers express themselves confident of being able to harvest the bountiful crop a fortnight earlier than usual. In Illinois rain has fallen within a few days, and a little more moist weather will produce an average crop in this State. In Central and Southern Virginia the wheat harvest has begun, and the product is above the average. In the far South the crops are reported as being in a fine condition. An unusually large area is sown with cotton; but the planters claim that they will grow wheat and corn enough for home consumption.

ON Tuesday evening of last week, a horrible tragedy took place in a house at Ninth Wharton streets, Philadelphia. A young man named William Stratton shot Miss Amelia Walton, aged about twenty-seven years, causing immediate death, and then shot himself in the right temple, from which he died in a few minutes. For some time past Stratton had been paying attention to Amelia, and on account of his intemperate habits and the abuse the girl was subjected to from him, was forbidden by the gentleman with whom she was living from entering the house. On the evening named he entered the house and went up stairs, and shortly after the reports of a pistol being heard, the police entered the dwelling and went to the sitting room, where they found them both lying dead, the clothing of the woman on fire.

HOW TO LOOK YOUNG—SIXTEEN.—Don't paint or use vile Restorers, but simply apply Hagan's Magnolia Balm upon your face, neck and hands, and use Lyon's Kathairon upon your hair. The Balm makes your complexion pearly, soft and natural, and you can't tell what did it. It removes freckles, tan, sallowness, ringmarks, moth-patches, etc; and in place of a red, rustic face, you have the marble purity of an exquisite belle. It gives to middle age the bloom of perpetual youth. And these effects to a splendid head of hair produced by the Kathairon, and a lady has done her best in the way of adornment. Brothers will have no spinster sisters when these articles are around. june3-1m

ALWAYS AHEAD.—Capt. NORRIS is determined not to be outdone by rivals, and hence has been brushing up his "Head-Quarters," on the corner of the Diamond and Chambersburg street, (Arnold's corner,) where he has on hand the largest and best assortment of Ready made Clothing of all kinds, for Spring and Summer use, ever opened in Gettysburg, and which he is offering at astonishing low figures. His stock of Straw Hats embrace all styles, qualities, and prices. April 22-tf

BLANK DEEDS, &C.—We have just printed a new lot of Blank Deeds of various kinds, including Deeds for Executors, Administrators, Guardians, Assignees and Trustees generally. Also Mortgages. They have been printed with clear type on the best of paper, and we are prepared to supply them in any desired quantity. Also, Judgment and Sale Notes, with and without Exemption Waivers, Negotiable Notes, &c.

ATTENTION FARMERS.—Try the celebrated Patent Elastic Rubber lined Collars, Saddles and Pads. Warranted to prevent horses from galling and to heal up under work horses already galled. If properly fitted; and sore necks and backs are kept clean with cold water and Castile Soap, or soapy. For sale by J. W. Cress, manufacturer's Agent, Gettysburg, Pa. Sept. 10-tf

SAVE MONEY.—Pending the agitation of the Funding Bill, which will evidently depreciate Government Bonds, persons would do well by reading the advertisement of the "Gettysburg National Bank," in another column, and exchange their Government Bonds and realize a handsome profit thereby, and obtain an investment as safe and profitable. tf

FULL.—The Hotels of this place have been full to overflowing during the week, owing to the meeting of the Grand Lodge of Good Templars.

GOOD TIME.—Our livery men have been enjoying a good time this week in hauling the strangers over the Battle-field.

ON THE TRACK.—The Passenger Railway Car has made its appearance on the track and is running heavy loads to the Springs Hotel.

YOU BET.—An exchange says: "Trying to do business without advertising is like winking through a pair of green goggles. You may know that you are doing it, but nobody else does."

FRIENDLY.—We had the pleasure this week of meeting with Mr. J. H. Fahnestock, editor of Lancaster *Express*, and Mr. E. H. Rauch, editor of *Father Abraham*, and *The Keystone Good Templar*, both are delegates to the Good Templar Convention.

ELECTED.—We observe among the proceedings of the Presbyterian General Assembly which adjourned last week, that Mr. John A. Renshaw of Pittsburgh —formerly of Littlestown, was elected a Trustee of the Western Theological Seminary, which is located in Allegheny City.

STRAWBERRY FESTIVAL.—The Ladies of the Presbyterian church will hold a Strawberry and Ice Cream Festival in Agricultural Hall, on Friday evening next, June 17, and also on Saturday afternoon and evening. A pleasant time may be expected, as large preparations are being made for the occasion.

ARREST.—On Monday evening last, Detective Rouzer, arrested in this place a man by the name of Joseph Crawford, hailing from Ohio, on suspicion of having stolen a horse near Bloomfield, Perry county, Pa. On his examination before Esquire Cover he admitted to the stealing of the horse on Sunday morning last.

CELLARS.—Great care should be taken at this season of the year to have house cellars well cleaned and ventilated, especially where there is decaying vegetable matter. Also a stream through the whole house is effected and made impure by cellars not being properly attended to, and especially is this true of farmers' houses.

CENSUS MARSHALS.—Gen. Gregory, U. States Marshal for the Eastern District of this State, seems to be slow in arranging his census operations. Thus far he has made few appointments outside of Philadelphia; at least they have not been announced. The Assistants should have been at work on the last of June. We have heard no reason assigned for the delay.

HEAVY RAIN.—On Friday night last an unusually heavy rain passed over the northern end of the county, Opossum Creek rising higher than was ever known. Much damage was done along the stream. The bridge on the State road, at John B. Hoffman's was carried off. We are told that the water in the stream came down the creek in a flood two feet high, with resistless power, sweeping off fences, bridges, &c. The Pine Grove road was torn up and impassable for several days.

THE LOCAL PAPER.—The following tribute to the local paper, from the Chicago *Republican*, contains so much truth that we transfer it to our columns, and commend it to the careful consideration of our business men and those interested in our town:

"What tells us so readily the standard of a town or city as the appearance of its paper? And its youth or its age can as well be determined by the observing as by a personal notice. The enterprise of its citizens is depicted by its advertisements; their liberality by the looks of the paper. Take your home paper; it gives you more news of immediate interest than New York or other papers; it talks for you when other localities belie you, it stands up for your rights; you always have a champion in your home paper, and those who stand up for you should certainly be well sustained. Your interests are kindred and equal, and you must rise or fall together. Therefore, it is to your interest to support your home paper; not grudgingly, but in a liberal spirit; as a pleasure, not as a disagreeable duty; but as an investment that will amply pay the expenditure."

IMPROVEMENTS.—We are glad to note that the Town Council are at work on the streets. Hope they will make thorough work of it. The Passenger Railway, leading to the Springs Hotel has been repaired and has been put in complete running order for the season.

At the Springs Hotel desirable improvements have been made for the accomodations of guests. A new building has been put up to contain a Billiard Saloon and Bowling Alley—bathing arrangements introduced into the hotel—and a large Stable erected on the grounds for Livery purposes. These improvements will meet a want felt by guests last season. The energetic proprietor, Mr. Hoppes, is preparing for a large number of visitors, and will, if indications hold out, satisfactorily maintain the reputation of the Hotel as a pleasant summer resort.

In town, we also note many improvements in addition to those heretofore spoken of. Col. Bushler and Prof. Batugher have been ornamenting the grounds around their new residences opposite Stevens Hall, with evergreens, flowers, vases, &c., presenting an attractive appearance.

Judge McCurdy is at work on his new dwelling opposite Prof. Ehrehart's, which promises to be a fine building.

The Catholic Church, on High street, has been thoroughly repainted, and a new fence put up in front.

Henry Overdeer has improved his property on the "Hill," in Baltimore street, and erected a new shop on the south part of the lot.

David Sterner has resumed work on his new brick house, on Chambersburg street.

Lewis Myers is about to erect a two-story weatherboarded dwelling house on the new street between Carlisle street and the Mummasburg road.

Robert Sheads is erecting a handsome two story frame cottage at his nursery, on the ridge north-west of town.

Swaney & Bro., are building a large Warehouse on the lot in the rear of their Store.

John Bough has remodeled and fixed up his house on Washington street.

Daniel Stallsmith on East Middle street has finished a handsome two-story frame house.

THE SUNDAY QUESTION.

MESSRS. EDITORS:—In your last issue appeared a communication, signed "Plain-dealer," which charges upon the Town Council the responsibility of the bad condition of our streets. The right or wrong of this question, I do not, however, propose to discuss. I only wish to say it is gratifying to find that some one has at last undertaken to stir up our tardy and neglectful corporation officials. It is certainly high time that something be done to improve our streets. There can be no difference of opinion about having the work commenced at once and pushed along vigorously, and there will be economy in having it well and quickly done. But where, it may be asked, should it be commenced? The most feasible plan will be to begin at the sides, next the pavements, establish the grades along and across the streets, macadamize out to where the turnpike Company are required to pike the road; and then compel that company and the Spring's Railway Company to complete their part of the work without any delay whatever. In this connection, it may not be improper to call attention also to the manner in which macadamizing should be performed. If large iron stones, generally called "nigger-heads," are dumped into mud-holes, even if covered with smaller stones, they will sooner or later come to the surface and make this, like Jordan, "a hard road to travel." The proper way is to break the stone fine, as they formerly were, to "ring" size, remove the mud, then put down from eight to twelve inches thickness of this kind of material, cover it with gravel or slate, and a creditable and durable improvement will be secured. Anything short of this will be only temporary repairing, and in a year or two the streets will be as bad as they now are. The Town Council doubtless understand this fully as well as other people, and if they have any regard for their own credit and that of the place, they will see to it that the work of putting our streets in a proper condition will be promptly and well done.

A TAX PAYER.

ORIGIN OF THE EVANGELICAL ALLIANCE.—In September next the "Evangelical Alliance" will assemble in the City of New York, and is already engaging the attention of Religionists in different parts of the land. The public prints are also taking up the subject, and presenting to their readers such facts as they may have concerning the history of the organization. Thus the *Pittsburg Gazette* of June 11th, in an article, says:

"The Evangelical Alliance was formed in 1845. It is not for us to determine whether Dr. Baird, of England, or Dr. Patton, of New York, is entitled to the honor of originating the Association.

It is doubtful whether the honor of originating the Alliance belongs to either of the distinguished men named by the *Gazette*. The subject of christian union had been discussed at an earlier date by divines in England and Switzerland. But doubtless the earliest agitation of it was by Dr. Schmucker, of Gettysburg. This is frankly set forth in a pamphlet, entitled "Historical Sketch of the Evangelical Alliance," which was distributed among the members whilst in session at London in 1846, and a copy of which we have now before us. It was prepared by Rev. Dr. King, of Glasgow, at the request of the Provisional Committee of a preliminary meeting and unanimously adopted as a correct narrative of the origin and preliminary steps for the formation of the Alliance at London. After having mentioned the frequent injunctions of God's word to unite among the followers of the Saviour, the pressing necessity and popery as calling for greater activity on the part of christians, and alluding to the uncommon facilities for Christian union that the leadings of Providence presented on the other hand, and that interesting movements had taken place expressly for the promotion of brotherhood, the history proceeds to notice a few examples, in doing which, (on page 3,) it says;

"And to begin with the *remotest*—much praise is due to Dr. Schmucker of America, for his zealous endeavors to associate Christians of different denominations across the Atlantic, and to concentrate their efforts on objects of common interest. Whatever may be thought of his scheme of union, all Christians must admire the spirit by which it was dictated, and rejoice in the *practical good of which the proposal and discussion of it have been confessedly productive.*"

From this it is evident, and it is a fact, that the fundamental principles upon which the Evangelical Alliance is based, were first presented by Dr. Schmucker, and whilst we have no desire to divert an iota of credit that may belong to others, it is only just that the same rule should be observed towards one acknowledged by the Alliance itself as first giving impulse to the idea of the association. It is, however, certain that at the organization of the American Branch of the Evangelical Alliance in New York in 1867, the Rev. Dr. Patton was the individual who moved that the time had arrived to organize an American Branch Alliance, on the basis adopted by the Convention at London in 1846, of which he was also an active and influential member, and as were likewise Drs. Belmer and Schmucker.

THE WEATHER.—For more than two weeks we have had an unusual amount of rain in this section, the storms sometimes continuing for two and three days, followed by heavy showers every day. The sun occassionally peeps out, with fair promise of clearing up; but a few hours invariably bring back the clouds and rain. The rains seem to have more frequent and plentiful in the central portion of the county, around Gettysburg, than on the northern and eastern borders. Grass and vegetation generally are growing wonderfully, but we hear much apprehension expressed of injury to growing grain. While we have excessive rains, many parts of the country, and even of the State, are suffering from want of it. In New England generally there is much complaint of protracted drought, affecting severely all kinds of vegetation. The Cincinnati *Commercial* of the 8th inst., thus speaks of the condition of things in Ohio:

The continued drought over the greater portion of the State awakens extreme solicitude among the farmers for their crops. The drought came on at a time when the spring crops were just starting, and before they had taken root sufficiently deep to draw other than surface moisture, and there is a large belt of country where a drop of rain has not fallen in six weeks. Such periods of dry weather are not uncommon later in the season, but we do not remember a year when the like has been experienced in the months of May and June. It is yet too early to make an estimate of the damage. Copious rains and favorable weather would do much even yet to revive the withering corn and vegetables. Wheat, hay and oats will be light at best, but the excellence of quality may compensate for loss in quantity.

TOWNSHIP STATEMENTS.—According to the provisions of a law passed by the Legislature of 1868, township auditors are required each spring to make out and publish a full and complete statement of the financial condition of their respective townships, under a penalty of fifty dollars. The auditors should, therefore, bear in mind this fact, and act in accordance with the law. Although this law has been in force going on two years, township auditors in this county do not seem to be aware of the fact. Is it not time that they attend to this important matter?

A dangerous counterfeit fifty cent fractional currency note of the new issue, with the Lincoln vignette, has just been put in circulation. It so clearly resembles a fifty cent note of the new issue that any one is liable to be deceived. The paper used is an imitation of that used by the Government, but is unlike the genuine, which is pink tinted. The counterfeit is slightly greenish in color, and the face is somewhat blurred. The words "fractional currency" and "stamps" are darkly shaded, which is not the case in the genuine. There is also a difference on the back of the note.

GOOD TEMPLARS.—The meeting of the Grand Lodge of the Good Templar organization of this State, during the present week, has made our town quite lively. The trains of Monday and Tuesday evening brought large numbers of ladies and gentlemen as delegates, as did also that of Tuesday noon. About 350 delegates are in attendance, including some of the most noted Temperance workers of the State. The sessions commenced on Tuesday morning, and are still in progress as we go to press. The Good Templars have become a power, bulging woman's potent influence actively to bear on the Temperance movement.

As the business of the Lodge was conducted in secret sessions we are unable to give any of the proceedings. The Grand officers consist of

G. W. C., T. S. B. Chase,
G. W. C., Rev. R. W. Kirby,
G. W. V. T., Annie Johnson,
G. W. S., L. Ellen Wright,
G. W. T., J. E. Johnson,
G. M., A. C. Goodrich,
D. M., H. C. Mott,
I. G., W. Morris,
O. G., O. Beatwich.

The business before the Lodge has been principally of resolutions and questions from subordinate lodges. We take the following from the Secretary's report for the last year.

Receipts	$23,373.85
Total membership	30,574
Males	17,978

Number of Lodges in the State	612

During the week Lectures were delivered in the evening in the different churches of the town to large and attentive audiences.

The following are a list of the Grand officers elected at the present meeting of the Lodge for 1870:

G. W. C. T., S. B. Chase.
G. W. C., J. J. Taylor.
G. W. V. T., Annie Johnson.
G. W. S., L. Ellen Wright.
G. W. T., J. E. Johnson.
R. W. G. Representatives, James Black, Annie Johnson, Marlott Brosius, Rev. J. F. Meredith.

The sessions held here have been very large and we understand have resulted in doing much good for the cause of temperance. The number of persons in attendance have been variously estimated at from 500 to 600. Erie City has been selected as their next place of meeting.

COMMENCEMENT EXERCISES OF PENNSYLVANIA COLLEGE.—As the time of the Annual Commencement of Pennsylvania College is close at hand, we will remind the friends of the Institution of the Exercises appointed for the occasion.

The Baccalaureate Discourse by Pres't. Valentine will be delivered on Sunday, June 26th, at 10½ o'clock A. M. On the evening of the same day Rev. Joel Swartz, D. D., of Carlisle, is to address the Young Men's Christian Association.

On Wednesday afternoon, June 29th, at 3 o'clock, S. J. Wilson, D. D., of Allegheny City, the Speaker of the Philomathean's, will address the Societies. William Hay, Esq., of York, will deliver the Alumni Address, on Wednesday evening.

The Theological Seminary Exercises will be on Monday and Tuesday evenings. Rev. Dr. Hay having the "Holman Lecture," on the 5th Article of the Augsburg Confession on Monday, and Rev. J. H. Heck, of Schoharie, N. Y., addressing the Theological Alumni, on Tuesday evening.

The Hanover and Gettysburg Branch Railroads have agreed to issue Excursion tickets from points of their roads, to Gettysburg and return, during Commencement season. The Phila. and Reading R. R., also will issue Excursion tickets from prominent points of their road, to Harrisburg and return for visitors to Commencement. The Northern Central and Penns. Central to issue excursion tickets for their roads, but they can be procured only by certificates provided for visitors beforehand. This makes their arrangements altogether impracticable for Commencement, for it cannot be told in advance who are going to attend the exercises. A limited number of certificates has been provided for the Northern Central road, so that persons wishing to get excursion rates can write in advance to the President or Librarian of the College for the certificates which will enable them to get excursion tickets.

HOME SUPPORT.—Support home mechanics, home mills, home labor, home merchants, home artisans, home press, home everything and persons, as near as possible, in order to do your part in supporting and building up your every day neighbor, place, county and State. Also, patronize those who patronize your mechanics—who do not fail through your papers to keep their business before the people. It shows business—it shows a liberal spirit—it means to live. When you find the latter kind of business men you will find men who will trade liberally with you, looking to both sides of the trade instead of one.

A GOOD PAPER.—"*The Advance,*" published at Chicago, is one of the best of our religious exchanges—high-toned, thoroughly evangelical, and conducted with great ability. We cordially commend to the patronage of all desiring a good family religious paper. The publishers offer to furnish it to the 1st of January at $1. See advertisement.

VALUABLE FARM AT PRIVATE SALE.

The undersigned offers at Private Sale a very DESIRABLE FARM, situate in Cumberland township, Adams county, Penna., 1¼ miles from Gettysburg, near the Chambersburg turnpike, containing 218 ACRES of land, of which there are 52 Acres in excellent timber. The land is in a good state of cultivation, and under very good fencing. The Improvements consist of a large new two-story BRICK DWELLING HOUSE, with a new Weatherboarded Summer House close to the dwelling, a never-failing well of water in front of the door, Frame Barn, Wagon shed, Corn Crib, Hog Pen, and all other outbuildings necessary on a farm.

There is also an Apple Orchard in prime bearing, and another that is just coming into bearing; also, a young Peach Orchard in fine bearing order. There are small fruits of all descriptions around the buildings.

The property is well suited for division, with almost an equal proportion of timber at each end. Good water for stock.

Persons wishing to view the property, or ascertain terms, will call on the undersigned residing on the premises.

The Star and Sentinel.

Gettysburg, Friday, June 17, 1870.

FEEDING WHOLE GRAIN TO CATTLE.

It is an expensive system of economy to feed whole grain to any kind of animals. All kinds of kernel grain are provided with a tough hull or skin, which the digestive powers of animals will not dissolve; consequently, if the skin is not broken before the grain enters the stomach, the kernels will usually pass off with the droppings without affording the animal that swallowed the grain any more nourishment than fragments of wood of the same size.

During the month of August last the writer procured a lot of horse manure for top dressing for strawberry plants, and in a few days after the mulch was spread around the plants, the broken kernels of oats vegetated so that the entire surface was as green as a lawn.

The fact showed conclusively that much of the grain had never afforded the animals that swallowed it any nourishment at all.

Young horses having sound and sharp teeth will sometimes crush every kernel, but old horses with poor teeth will often swallow half their mess of oats without breaking the skin of the kernels.

When mills are distant and people will insist on feeding whole grain, it will always be found advantageous to soak the grain at least twenty-four hours before feeding it.

MANAGE IN HORSES.—All the mangy parts of the horse's body should be rubbed with an equal mixture of soft soap and ointment, and in twenty-four hours it should be washed off with warm water and the horse carefully dried and blanketed afterwards. If one application is not sufficient, a second one should be made, but eight or ten days should intervene between each application.

When you perceive your horses inclined to rub their manes and tails, feed them a little oil meal, say from one to two quarts a day for a week or ten days, and at the same time make good brine, as warm as you can bear you hand in it, and wash the scaly substance out of the mane and tail, and mix about a tablespoonful of lard to a tablespoonful of powder, and rub it in well about the roots of the mane and tail.

BLOOD SPAVIN AND THOROUGHPIN,—Blood spavin disease is a bruisal enlargement, or an increase in the secretion of the joint oil, causing distension of the capsular ligament which surrounds the joint, causing puffy swellings on the front and inside of the joint, but rarely causing lameness.

THOROUGHPIN is the same disease, on a more extensive scale, causing the enlargement to extend through the joint, from one side to another. The only successful treatment which we have found, with a few exceptions, is cold water compresses, placed upon the joint in such a manner as to press upon the swollen parts, and retain them there for six or eight weeks, by means of a leather socket made to fit the joint; the compress to be changed every day. Old muslin cloth is the best material to use.—*American Stock Journal.*

THE disinfecting power of water has been receiving considerable attention of late. With the exception of charcoal, it is said that no other substance is so perfect an absorbent of odors.—It absorbs its own volume of some gases, and more than six hundred times its volume of others. For instance, of ammonia gas, which is one of the largest products of decomposition, six hundred and seventy cubic feet is absorbed by one of water. Another offensive odor, always present where animal matter is decaying, arises from sulphide of hydrogen. Water absorbs two and a half times its own volume of this. These facts are worthy of remembrance and practical attention.—A quantity of water placed in an open vessel in a sick room, and changed often, makes an excellent disinfectant.

A GREAT FARMER'S MAXIMS.—The successful life of a Mr. Jacob Strawn, the prince of American farmers, is attributed to the close observance of the following maxims, originated by himself:

When you wake up, do not roll over, but roll out. It will give you time to ditch all your sloughs, break them, harrow them and sow with timothy and red clover. One bushel of clover to two bushels of timothy is enough.

Make your fence high, tight and strong, so that it will keep cattle and pigs out.

Be sure to get your hands to bed by nine o'clock, they will rise early by force of circumstances. Pay a hand, if he is a poor hand, all you promise him; if he is a good one, pay him a little more; it will encourage him to do still better.

CLOVER AMONG CORN.—A contributor to the *Prairie Farmer* gives the following experience of clover among corn:—"I sowed the seed in the chaff, immediately after plowing my corn the last time. The land was very dry, and mellow and sandy. In June, after sowing, the clover was about ten inches high and stood thick on the ground; then put my sheep in and kept it eaten down till I wanted to plow it for wheat. I think if it had stood till August it would have made a good crop. On our land, it is the very best way to get in clover; it never winter kills with us, but frequently sun kills or burns out."

INSECTS.—The annual fight must be kept up. Wherever a tent-caterpillar's nest is to be seen, there is a challenge to combat. The insect will get the best of it if it is allowed time. Make it somebody's business to destroy every nest, and let that somebody be yourself, if you wish it done faithfully.—Jarring the trees and catching the insects upon a sheet or other convenient receptacle, is the only certain mode of warfare with the curculio yet known. Begin early in the season, and early in the morning. All washes and "invigorators" plague the inventor more than they do the curculio.

FOUNDER IN HORSES.—A large tablespoonful of pulverised alum, and a teaspoonful of pulverised saltpeter mixed. Moisten the dose and administer it by pulling out the tongue and placing the spoon as far back in the mouth as possible. Feed carefully and exercise gently every day. Repeat the dose every other day for several days.

SCURFF ON THE LEGS OF POULTRY.—The following receipt has been found an effectual remedy:—20 grains carbonate of soda; 1 ounce of lard, 1 drachm sulphur. Applied occasionally to the legs till a healthy appearance is restored.

"WHY do you call me birdie, my dear?" inquired a wife of her husband. "Because," was the answer, "you are always associated in my mind with a bill."

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protection against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the throat and lungs. As a provision against sudden attacks of croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail Containing neither Arsenic, Quinine, Bismuth, Zinc nor any other mineral or poisonous substance what ever, it is nowise injurious to any patient. The number and importance of its cures in the ague districts, are literally beyond calculation, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either residents, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and *Liver Complaints*, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
